HOBBIES

ABOUT ME

I'm a freelance interactive designer based in Wichita, Kansas, with a rich background in graphic design spanning over ten years. My true passion lies in storytelling through dynamic and engaging user experiences, particularly in the realms of websites and mobile apps.

In my career, I've traversed traditional graphic design and print, but my heart beats fastest when making things move and creating excitement through innovative design. What sets me apart is my commitment to transforming the digital landscape. I aim to inject more interactivity into online platforms, crafting experiences that not only captivate but entice users to revisit.

EDUCATION

2005 - 2008
Wichita State University
Bachelor of Fine Arts in Graphic Design

2001 - 2003
Butler Community College
Associate of Arts in Graphic Design

1998 - 2001
Derby High School

WORK EXPERIENCE

2020- Current

US Logo Graphic Designer

My Position at US Logo is their screen print designer. I am in charge of designing logos for clients. Mocking up what the screen print is going to look like and e-mailing that to the clients. I am in charge of quality control for the overall prints. I also help with designing flyers, Business cards, any signage design, Embroidery, and vehicle wraps. I use Adobe programs for all of my design needs.

2014 - 2020

Print me a sign / Wholesale Fireworks Art Director / Graphic Designer / Print Shop Manager

I am in charge of all the design work and advertisements for our clients. I take great pride in the designs I create for our customers. I talk to the client to find out what their company is about and send them proofs of their designs. Once they have chosen a final design I set up our HP printers and start producing their jobs. I am also in charge of all production, shipping, billing and closing out each job.

2009 - 2013

Select Homes Graphic Designer

While at Select Homes I designed their real estate magazine that came out every month. I was the only designer they had to get their magazine on the shelf before the month it was advertising for. I also designed the business cards for all of the different employees and any other in house letters.

Design Services

IDEATION
